Subject: Revised WA_Changes_OpenSeason spreadsheet
Attachments: WA Changes_OpenSeason 10-2Update.xlsx

Hi Miranda and Laurie,

I wanted to send you two specifically the revised WQ-27 spreadsheet in its entirety. The last email included EPA HQ staff and I thought I remembered they weren't too interested in anything other than the changes tab. So attached is the spreadsheet you sent, Miranda, just with a new changes tab and a new WA-Accurate Tab that includes updated AU IDs that correspond with updated geometry that will match our next assessment cycle. I thought you might want the Plan Name column just in case... not sure what it means that AU IDs are changing for our next assessment cycle. The Standards/Assessment Unit Supervisor was adamant that I didn't send geospatial data that would have outdated AU IDs in a few months, which I understand but I was also worried because open season ended some time back I believe. I hope it doesn't create too much of an issue!

Laurie-I see your emails from the other day and will review and get back to you shortly.

Sincerely,

Lara
